## ABSTRACT

The "Movies" page serves as a gateway to a world of cinematic marvels, encompassing a diverse array of films spanning genres, cultures, and eras. This abstract provides an overview of the Movies page, highlighting its features, content offerings, and the immersive experience it offers to cinephiles and casual viewers alike

- Curated collections and thematic playlists enrich the Movies page, enabling users to explore films based on specific themes, directors, actors, or cultural contexts
- From "Award-Winning Classics" to "Directorial Debuts" and "Cinematic Icons," curated collections offer a curated selection of films tailored to diverse interests and preferences.

# 1. INTRODUCTION

## 1.1. Objective

- The Movies page is a curated collection of cinematic treasures, designed to cater to the diverse tastes and preferences of movie enthusiasts.
- This abstract offers insights into the rich tapestry of films available on the platform, inviting users to embark on a cinematic journey across genres and cultures. Content Diversity:
  - The Movies page showcases an extensive selection of films, ranging from timeless classics to contemporary masterpieces.
  - Users can explore a wide variety of genres, including drama, comedy, action, thriller, romance, sci-fi, horror, and documentary, among others.
- Leveraging advanced algorithms and user preferences, the Movies page provides personalized recommendations tailored to individual tastes and viewing history.
  - Through intuitive recommendation engines, users can discover new films aligned with their interests and preferences, enhancing their movie-watching experience.

# 2. REQUIREMENTS SPECIFICATION

## 2.1. Requirements

- > THERE SHOULD BE HIGH QUALITY IMAGES
- > NEEDED VISUAL STUDIO CODE PLATFORM TO CODE
- > EXTERNAL CSS FILE
- > ATTACHED LINKS AND FILES

> COLOR COMBINATIONS

> CSS

> EXTERNAL FILES WITH ATTACHED IMAGES

### 3. DETAILED DESIGN

#### Tags:

- **<html>** : It is the keywords on a web page that define how your web browser must format and display your web page.
- **<head>** : It is used to define the head section of an HTML document.
- **<title>** : It allows you to give a web page a title. This title can be found in the browser title bar
- **<body>** : It contains all the contents of an HTML document, such as headings, paragraphs, images, hyperlinks, tables, lists, etc.
- **<h1>** : It is used to create the main title on a webpage and helps indicate the page's primary topic to visitors and search engines.
- **<p>** : It is used to create a paragraph on the webpage to give some information.
- **<br>** : inserts a single line break.
- **<ul>** : It is used to use for the unordered list.
- **<li>** : It is used to define a list.
- **<link>** : It defines the relationship between the current document and an external resource.
- **<a>** : It defines hyperlinks, allowing users to navigate from one page to another..

- **<input>** : It specifies an input field where the user can enter data.
- **<label>** : It is used to specify a label for an <input> element of a form.
- **<img>** : It is used to insert a image in the html document.

## 4. PROJECT IMPLEMENTATION

    <div class="inner-title">

      <h1>Frequently Asked Questions</h1>

    </div>

    <ul>

      <li>

        <h2>What is Netflix <i class="fas fa-plus"></i></h2>

        <p>

          Netflix is a streaming service that offers a wide variety of
          awardwinning TV shows, movies, anime, documentaries, and more
          on thousands of internet-connected devices. <br />You can watch as
          much as you want, whenever you want without a single commercial
          – all for one low monthly price. There's always something new to
          discover and new TV shows and movies are added every week!

        </p>

      </li>

      <li>

        <h2>How much does NetFlix cost? <i class="fas fa-plus"></i></h2>

        <p>

```

Watch Netflix on your smartphone, tablet, Smart TV, laptop, or streaming device, all for one fixed monthly fee. <br />

Plans range from TWD270 to TWD390 a month. No extra costs, no contracts.

</p>

</li>

<li>

<h2>Where can I watch?<i class="fas fa-plus"></i></h2>

<p>

Watch anywhere, anytime, on an unlimited number of devices. Sign in with your Netflix account to watch instantly on the web at netflix.com from your personal computer or on any internetconnected device that offers the Netflix app, including smart TVs, smartphones, tablets, streaming media players and game consoles. <br />You can also download your favorite shows with the iOS, Android, or Windows 10 app. Use downloads to watch while you're on the go and without an internet connection. Take Netflix with you anywhere.

</p>

</li>

<li>

<h2>How do I cancel?<i class="fas fa-plus"></i></h2>

<p>

Netflix is flexible. There are no pesky contracts and no commitments. You can easily cancel your account online in two

clicks. There are no cancellation fees – start or stop your account anytime.

</p>

</li>

<li>

<h2>What can I watch on Netflix?<i class="fas fa-plus"></i></h2>

<p>

Netflix has an extensive library of feature films, documentaries, TV shows, anime, award-winning Netflix originals, and more.

Watch as much as you want, anytime you want.

</p>

</li>
